

Going Green

ED BEGLEY JR'S GUIDE TO SUSTAINABLE LIVING | Ed Begley, Jr.

333.72 Begl

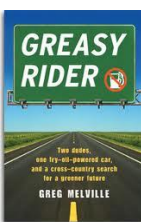

This is Ed Begley, Jr.'s book on energy conservation and alternative energy sources for the homeowner. Ed covers how to do an energy audit in your home and find ways to conserve and produce your own energy. There are tips on how to build an environmentally friendly home.

LIVING LIKE ED | Ed Begley, Jr.

333.72 Begl

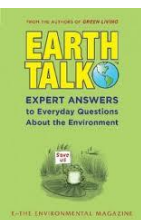

Looking for environmentally friendly tips for your home, garden, cooking and clothing? Ed Begley, an environmentalist for many years shares money saving and environmental tips for gardening, cooking, cleaning products, clothing, skin care and recycling.

GREASY RIDER | Greg Melville

333.72 Melv

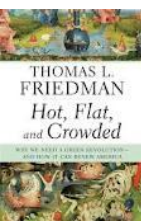

The author and a college friend drive cross country in a French-fry oil powered car. Their road trip includes visiting Google's solar powered headquarters, an eco-friendly Wal-Mart, and the world's largest geothermal heating system at Fort Knox.

EARTHTALK | E-The Environmental Magazine

332.72 Eart

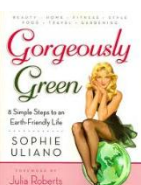

This easy to read question and answer format includes the best from the archives of "Earth Talk" covering a wide range of topics on food, cooking, energy, clothing, shopping, toxic toys, alternatives to weed killers, and pet food.

HOT, FLAT, AND CROWDED | Thomas L. Friedman

363.7 Frie, Q, CD

Friedman explains how global warming, rapidly growing populations, and the astonishing expansion of the world's middle class through globalization have produced a planet that is "hot, flat, and crowded." The U.S. needs to lead in a worldwide effort to replace our wasteful, inefficient energy.

GORGEOUSLY GREEN | Sophie Uliano

333.72 Ulia

The author includes an eight step program to an earth-friendly life covering beauty, fitness, cooking, food, home, travel and shopping. Many tips are included on choosing cosmetics such as shampoo, lotions, makeup, hair dye, toothpaste, and sunscreens.

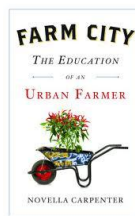

GREEN GOES WITH EVERYTHING: SIMPLE STEPS TO A HEALTHIER LIFE AND A CLEANER PLANET | Sloan Barnett

613.5 Bar

This is a practical "how to" book on how to be healthy by changing the household products and cosmetics we use every day. Chapters such as clean body and clean baby include alternative products. The author exposes the toxins behind everyday household products.

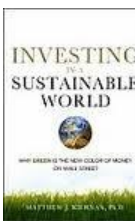

Going Green

FARM CITY: THE EDUCATION OF AN URBAN FARMER | Novella Carpenter

307.76 Car

Food writer Carpenter experiences being an urban farmer turning a vacant lot in Oakland, California into a working mini farm with vegetables, herbs, honey, eggs and home-raised meat.

INVESTING IN A SUSTAINABLE WORLD WHY GREEN IS THE NEW COLOR OF MONEY ON WALL STREET | Matthew Kiernan

e-book

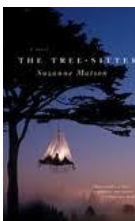

A guide for investors who want to invest in the "going green" market. The author analyzes the natural forces (climate change, pollution, population growths and human rights) that affect the green industry and provides an investment roadmap to them.

HOOT | Carl Hiaasen

FIC, CD, DVD

A young adult novel, this anti-development story is set in Florida where Roy and his two friends try to stop construction of a pancake house which would destroy a colony of burrowing owls who live on the site.

THE TREE SITTER | Suzanne Matson

FIC

Julie Prince has fallen in love—both with Neil, an ecological activist and with his cause of saving forests. Julie accompanies her boyfriend to the Oregon forests where they stage a tree-sitting protest, living in a centuries-old Douglas fir until she questions her own values.

ALL OVER CREATION | Ruth Ozeki

FIC

Yumi comes home with her three young children to take care of her aging and sick parents who have farmed potatoes for decades in Idaho. Part family drama, love story and thriller this book blends in environmental concerns about genetically modified food.

THE FINAL WARNING; A MAXIMUM RIDE NOVEL | James Patterson

FIC, CD

Fourteen-year-old Maximum Ride and the other members of the "Flock"—Fang, Iggy, Nudge, Gasman and Angel—are just like ordinary kids—only they have wings and can fly. Max returns in book 4 of the series and the flock goes on a special mission to Antarctica with a team of environmentalists studying the effects of global warming.

ULTIMATUM | Matthew Glass

FIC

In this thriller about global warming set in 2032, Joe Benton the newly elected President of the United States learns that the world is facing climate catastrophe.
