

# Adult Cancer Resource

## Guide July 2006

*Funded through a grant to the Ocean County Health Department provided by The Office of Cancer Control and Prevention of the New Jersey Department of Health and Senior Services*

## FOREWORD

The Ocean County Adult Cancer Resource Guide is a project undertaken by the Ocean County Cancer Coalition (OCCC) to help Ocean County residents access cancer prevention, education, diagnosis, treatment and support resources. Local and national resources are provided and range from informational to financial aid.

OCCC members know that receiving a diagnosis of cancer is physically and emotionally challenging. That is why we compiled this comprehensive list of resources – to assist patients, their families and friends as well as community organizations and professionals during those times.

OCCC is a coalition that is funded through a grant to the Ocean County Health Department provided by The Office of Cancer Control and Prevention of the New Jersey Department of Health and Senior Services. Our members include representatives from: the Ocean County Health Department, the Long Beach Island Health Department, Community Medical Center, Kimball Medical Center, Ocean Medical Center, Southern Ocean County Hospital, The American Cancer Society, The Alcoholism and Drug Abuse Council of Ocean, The Leukemia & Lymphoma Society, the Puerto Rican Action Board, Ocean County Office of Human Services, Ocean County Office of Senior Services, Jackson Board of Education, The Wellness Community and community representatives.

We depend upon people like you to keep us informed about available resources. Please feel free to let us know of any additions, corrections or suggestions, by contacting me at (732) 418-3232 or [dlevinson@newsolutionsinc.com](mailto:dlevinson@newsolutionsinc.com).

Thank you for your interest.

Sincerely,

*Debra A. Levinson*
