If not, click the down arrow to select another device. If not signed in, sign in **with the Amazon account that the Kindle is registered to** or create an account and register the device. Tap 'Continue.'
10. If the Kindle is connected to Wi-Fi, the eBook will appear on your device immediately. If not, it will download as soon as the Kindle connects to the Internet. If it does not appear right away, tap the Settings button in the upper right-hand corner and then tap Sync.

To Return a Library eBook:

Library eBooks are **automatically returned** at the end of the lending period. You don't have to worry about late fees. However, the book will continue to appear on your Kindle until you delete it from your device (the cover image will display the title and the words "loan ended."). To remove the image from your Kindle, press and hold the cover image on your Carousel. Tap Remove from Device.

If you finish an eBook early or decide you no longer want it, you can return it to free up 1 of your 5 allotted checkouts and make the eBook available to other customers.

1. Go to Amazon.com and sign in with your username and password. Tap 'Your Account' in the top right corner. Tap 'Manage Content and Devices.'
2. You will see a list of titles that are on your device under the heading called 'Your Content.' Look for the title that you want to return and/or delete from your Kindle. Tap the **Actions** button – "... " - to the left of the title.
3. Tap **Return This Book** and then tap 'Yes' when you are asked whether you are sure that you want to return it. The book is removed from your list of Kindle contents.
